

GAYATHRI N

| [Gmail](#) | 8190823905 | [Linkedin](#) | [Indeed](#) | [Portfolio](#) |

Motivated Computer Science graduate and AWS Cloud enthusiast with hands-on experience in cloud deployments, infrastructure automation, and cloud training. Certified in AWS Solutions Architect principles and skilled in Python, SQL, and web technologies. Experienced as an AWS Trainer and Cloud Intern, I seek to leverage my technical expertise and leadership skills to contribute to dynamic cloud and software development teams.

Education

Bachelor of Science in Computer Science

Srimad Andavan Arts & Science College, Trichy – 2024 (2021-2024)

CGPA-8.09

Higher Secondary Education

Seva Sangam Girls Higher Secondary School, Trichy – 2021 (2020-2021)

Percentage- 85%

Secondary Education

Seva Sangam Girls Higher Secondary School, Trichy – 2021 (2019-2020)

Percentage- 74.4%

Certifications

- **AWS Solution Architect** — FITA Academy
 - **Cloud Foundations** — Great Learning
 - **ReactJS** — Simplilearn
 - **Excel** — Great Learning
 - **Workshop on AI dashboard using Power BI**- Skill Nation
 - **Beginner level Jenkins tutorial**-Great Learning
-

Technical Skills

- **Cloud Platforms:**
 - AWS (EC2, S3, IAM, Lambda, CloudWatch, CloudFormation, SNS)

- Google Cloud Platform (GCP)
- **Programming Languages:**
 - Python (Beginner)
 - JavaScript (Beginner)
 - SQL (Intermediate)
 - HTML & CSS (Intermediate)
 - React.js (Beginner)
- **Web Development:**
 - Frontend: HTML, CSS, JavaScript, React.js
 - Version Control: Git, GitHub
- **Infrastructure as Code (IaC):**
 - AWS CloudFormation (Basic)
 - Terraform (Basic)
- **Database Management:**
 - MySQL, PostgreSQL (Basic)
- **Cloud Security and Monitoring:**
 - AWS IAM (Identity and Access Management)
 - AWS S3 Security and Permissions
 - AWS CloudWatch
 - AWS Cost Management and Optimization
- **Data Analysis and Visualization:**
 - Excel (Intermediate)
 - Power BI (Beginner)

Work Experience

JUNIOR IT TRAINER (AWS Trainer)

ELYSIUM ACADEMY – Trichy | **April 2025** – Present

Responsibilities:

- Conducting introductory training on **AWS cloud services** for individuals preparing for certification exams.
- Developing and delivering **training materials** to help beginners understand AWS tools like **EC2**, **S3**, and **IAM**.

- Assisting trainees with hands-on exercises and providing individual guidance on **AWS best practices**.
- Collaborating with senior trainers to refine course content and improve overall delivery.

CLOUD COMPUTING INTERN

CODTECH IT SOLUTIONS – Remote | January 2025

- Deployed and managed AWS EC2, S3, IAM, and Lambda services.
- Set up AWS CloudWatch for monitoring and alerts.
- Assisted with cloud cost optimization and security best practices.

Achievements:

- Improved system uptime by 15% through CloudWatch monitoring.
- Contributed to a multi-cloud architecture project (AWS and GCP).

CLOUD COMPUTING INTERN

BRAINWAVE MATRIX SOLUTION– Remote | February 2025 – March 2025

- Managed AWS EC2, S3, and IAM for secure cloud environments.
- Assisted in implementing IAM roles and cloud backup solutions.
- Supported the deployment and optimization of cloud applications.

Achievements:

- Enhanced security and deployment speed by 25% using IAM and automation.

Projects

Cloud Projects

- **Infrastructure as Code:**
Automated AWS resource provisioning using Terraform (EC2, S3, IAM).
Tech Stack: AWS, Terraform
- **Cloud Storage Setup:**
Built secure storage solutions using Amazon S3 buckets and configured access permissions.
Tech Stack: AWS S3
- **Cloud Monitoring & Alerts:**
Set up monitoring metrics (CPU, memory, network traffic) using AWS CloudWatch and triggered real-time alerts via SNS.
Tech Stack: AWS CloudWatch, SNS
- **Multi-Cloud Architecture:**
Designed a distributed multi-cloud setup with AWS hosting the frontend and GCP

managing backend services.

Tech Stack: AWS, Google Cloud Platform (GCP)

- **Cloud Security Implementation:**

Implemented IAM policies, secured data storage with encryption, and enforced best practices for access control in AWS.

Tech Stack: AWS IAM, S3 Encryption

Web Development Projects

- **E-Content in Student Portal:**

Developed a real-time content delivery platform for students using PHP and MySQL, integrated into the college portal.

Tech Stack: PHP, MySQL

- **E-Commerce Website:**

Designed a responsive e-commerce website for online purchasing using modern frontend technologies.

Tech Stack: HTML, CSS, JavaScript

- **Event Management System:**

Created a localhost-based event management application with dynamic event handling and database integration.

Tech Stack: HTML, CSS, JavaScript, PHP, MySQL, XAMPP (Apache Server)

- **Sales Dashboard:**

Developed a dynamic Excel dashboard to visualize and analyze sales data trends.

Tech Stack: Microsoft Excel

Volunteer Experience

Event In-Charge

Srimad Andavan Arts & Science College — 2022-2024

- Led and organized over 30 events, strengthening leadership and team coordination skills.
- Successfully conducted inter-college competitions, achieving a hat-trick victory for the department.

NSS Volunteer & Head Girl

Srimad Andavan Arts & Science College — 2021-2024

- Participated in various community awareness programs.
 - Led a team of volunteers in campus cleanliness and environmental initiatives.
-

Additional Information

- Available for relocation, Eager to start a career as an AWS Solution Architect - Associate, Software Development, Web Development.
